## EDUCATION

---

### BCAS - Pearson College London

HND in Computing (Software Engineering)

Sep 2022 - Mar 2024

### Northern Uni (SLIIT)

BSC in Software Engineering

Mar 2025

## LANGUAGE

---

**English** Intermediate

**Tamil** Fluent

## PROJECT

---

### Java Project - Online Food Ordering System

2023

This payment processing system is designed using a Point of Sale (POS) framework, suitable for all types of food restaurants. Developed in Java, it ensures seamless transaction handling, improving the efficiency and accuracy of restaurant operations.

### Website For Online Food Ordering System [↗](#)

2023

This is a user interface method for placing food orders in a restaurant, developed using HTML, CSS, and JavaScript to create an intuitive and responsive ordering experience. Test cases for the system were created using Excel to ensure functionality and reliability.

### Math Challenge Game [↗](#)

2025

Developed an interactive web-based game using HTML, CSS, and JavaScript that challenges users with time-based arithmetic puzzles. The game features user authentication via Firebase, dynamic difficulty levels, real-time scoring, leaderboard tracking, and personalized performance history. It incorporates responsive design, dark mode toggles, and gamification elements to enhance user engagement and learning experience.

## SKILLS

---

- Programming Languages: HTML, CSS, JS, PHP, Python
- Database - Mysql
- Applications and Tools: Visual Studio , NetBeans , Figma , WordPress
- Documentation & Presentation Tools - MS Word, MS Excel, MS PowerPoint
- Basic knowledge in Manual Testing & Selenium
- I was involved in the regression testing and functional testing
- I have experience managing and working with WordPress.

## CERTIFICATE

---

### SQL-Solo Learn (2022) [↗](#)

Completed an online SQL course covering database queries, joins, filtering, and data management fundamentals.

### Software Testing Tutorial - Great Learning (2024) [↗](#)

Completed a comprehensive tutorial covering fundamental concepts of software testing, including testing types, methodologies, and best practices.

### Mindmap AI (January 12 2025)

Participated in the webinar "Enhancing Strategic Thinking with AI Powered Mind Mapping hosted by MindMap AI.
